Education

Indira Gandhi National Open University, Delhi   **2020 - 2023**
Bachelor of Computer Applications   *7.5/10 CGPA*

Work Experience

Evoit private limited delhi   **March 2023 – Present**
Web Developer   *Delhi*

- ***Eximpedia.app:*** Designed and developed a comprehensive platform for importing and exporting data, focusing on sales both within India and internationally. Implemented features including a unique dashboard, time management tools, risk analysis, and market reporting to enhance user experience and data accessibility.
- ***Beta.delhi34.com:*** Developed a resort hotel booking system where users can book rooms based on their specific requirements. Designed the user interface to streamline the booking process and integrated a registration system to facilitate user requests and manage reservations efficiently.
- Worked on ***Interrize.com/PDMC/***, a platform that facilitates online information retrieval, data management, document capture and storage, link sharing, workflow management, and security through cloud-based solutions, audit trails, and access control.
- Worked on **sigsystems.com/gpu-rental/**, a platform for renting or purchasing graphics processing units (GPUs) that provides detailed GPU specifications and enables users to submit a form to receive information on GPS location and direct vendor contact for further assistance.

Projects

Sundown Frontend Project: [Source Code](#)

- Worked on the frontend development of the Sundown project, where I focused on crafting an engaging and user-centric interface using cutting-edge frontend technologies. This involved designing responsive layouts and interactive elements with **HTML**, **CSS**, **Bootstrap** ,**Javascript** to ensure a seamless and visually compelling experience for users across different devices and screen sizes.

HouseOnRent Project: [Source Code](#)

- Developed a sophisticated predictive model to estimate house prices tailored to users' budgets and location preferences. Integrated various backend technologies, such as **CORE PHP** and Databases **XAMPP MYSQL SERVER**, with frontend frameworks like **HTML**,**CSS**,**JAVASCRIPT**, **JQUERY** and **AJAX** to deliver a seamless user experience. The model leveraged historical data and advanced algorithms to provide accurate, real-time pricing estimates, helping users make informed decisions about housing options based on their specific criteria.

Technical Skills

Languages: Php, JavaScript, Java
UI/UX Designing: Figma, Canva, Adobe XD
Frontend: Html, Css, Bootstrape, React.js
Backend: Laravel, Php
Database: Xampp, Mysql, PhpMyAdmin

Honours and Certification

Accelerator Programming Camp   **March 2020 – present**
Batch of 2020

- Issued by Mimo, this certification demonstrates proficiency in web development technologies, with comprehensive coursework covering HTML, CSS, JavaScript, and more.
- Issued by SoloLearn, this certification validates expertise in core programming languages including C, C++, Java, and JavaScript, and is based on successful completion of hands-on projects and assessments.
- Collaborated with fellow students and faculty on eco-friendly projects and awareness campaigns, led efforts to organize and participate in school-wide sustainability events and activities, and gained insights into environmental stewardship and teamwork.
- Eco Club Certification GSKV Amalavas: Recognized as an active member for contributing to environmental initiatives within the school community.
